**1984**

With the introduction of evening classes, we enabled people to learn the latest technologies while still being able to work full-time jobs.

**1985**

In a few short years we expanded to twice our original size and started offering technical training for C++.

We introduced technical training on Windows and on-site training sessions.

**1989**

We gained further IT training expertise by becoming a Level 1 Authorized Education Center (AUEC).

**1991**

Our Santa Ana location expands to 10 classrooms and with their strong momentum, New Horizons prepares to broaden our reach beyond California borders.

**1992**

The first New Horizons franchise opened in Denver, Virginia. Our training solutions model was so effective that it led to 28 franchise centers being opened by year's end.

**1993**

Our first international franchise opened in Mexico City, Mexico. Along with continued growth in the U.S., this brought our total number of centers to 43.

**1994**

We continued our international expansion with locations in South America, Asia, Africa and the Middle East, becoming the largest network of Microsoft Authorized Technical Education Centers.

**1996**

With 151 centers, we became the largest independent IT training company in the world.

**1997**

In just 15 years, we grew to 183 locations worldwide.
